

NEW ENGLAND ANIMAL FERTILIZERS

Are Effective. They give all-around satisfaction year after year. They are cheaper than home-mixed chemicals. They will contain more valuable plant food than ever in 1916 at no increase in cost.

New England Animal Fertilizers

answer the essential requirements for crop production. Year after year they have demonstrated the superior quality of animal substances—**BONE, BLOOD and MEAT**—as a plant food of powerful productivity.

And now that the supply of potash has been cut off, we offer the same best fertilizers, *tested and proven good without potash!* Soils need organic food to keep them always rich and productive; New England Fertilizers furnish just that food!

"On May 21st I planted potatoes with New England Animal Fertilizer without potash. The yield was large, and I did not have so many small potatoes on this kind as on the others. While I firmly believe that potash is needed for potatoes, and a good percentage of it, I am convinced that it will pay for a year or so to use New England Animal Fertilizers without potash."

ITCHING, BLISTERED SKIN-ERUPTION ALL HIS LIFE, NOW CURED

Nov. 19, 1914:—"All my life, until about a year ago, I was troubled with blisters and sores over my entire body. The itching and burning was terrible, and I could hardly sleep. I used many treatments that were unsuccessful and did not give me any relief. I started using Resinol Ointment and Resinol Soap and they helped me wonderfully. I WAS RELIEVED AT ONCE, and after about two dozen applications I can say that I was free and cured of that awful disease. My skin now is as clear as anybody's."—(Signed) Geo. Whitecher, Jr., R. F. D. No. 54, Caledonia, N. Y. Resinol Ointment and Resinol Soap are sold by all druggists.

IS YOUR TOILET SOAP SAFE?

Many toilet soaps contain harsh, injurious alkali. Resinol Soap contains absolutely no free alkali, and to it is added the Resinol medication. This gives it soothing, healing properties which clear the complexion, comfort tender skins and keep the hair healthy.

There is a Real Risk in Waiting Too Long Before You Order Your Ford

Each year we have urged the public to guard against possible disappointments. Each year, in spite of this warning, many have had to pay more for another car because they could not get a Ford. In spite of double the production, we find ourselves thirty-six cars short of our allotment up to the present time. The present indications are that we will have hard work to fill orders after the first of May.

Year after year, there is a steadily growing demand for the Ford car; a very large number of owners automatically renew their orders for a Ford car. Year by year, the Ford becomes more of a business asset: the touring car for pleasure, the runabout for physicians and professional men, the delivery car for the merchant. There is more than double the production of Ford cars against that of any other car on the market to-day. The Ford owes this prestige not only to its economic production but to the completeness of the Ford Service all over the world.

There is no car produced that can be run so cheaply and there is no place so remote that you are not protected by the network of the splendid Ford Service which covers the entire country. Therefore, if you can place your order for a Ford now, we urge you to do so and guard against disappointment. We are doing our best to protect you but we will have to disappoint many before the season closes.

Prices f. o. b. Detroit: Touring car, \$440.00; Runabout, \$390.00; Delivery car, \$475.00 to \$525.00.
